

Hebron School Bathroom Renovation Project Tucurú, Alta Verapaz, Guatemala

Safe and functional restroom facilities are essential to the health, well-being, and safety of students. Proper school sanitation helps promote good hygiene, prevent illness, reduce health risks, and provide students with a safe and dignified learning environment. The restroom facilities at Hebron School in the municipality of Tucurú were constructed approximately 15 years ago and have deteriorated significantly over time. They are no longer adequate for the students who use them each day.

Hebron School currently serves **110 students**. Years of daily use have resulted in substantial deterioration of the toilets, plumbing, floors, walls, doors, and fixtures. These conditions make it increasingly difficult for the school to maintain appropriate standards of cleanliness, sanitation, and safety.

The community has therefore requested support to renovate the school's restroom facilities. The proposed project will replace six toilets and associated plumbing, repair and maintain the restroom doors, repaint the facilities, and complete other necessary repairs.

These improvements will provide students with cleaner, safer, and more functional restroom facilities and contribute to a healthier and more dignified school environment.

Expected Impact

The project will directly benefit the **110 students** who attend Hebron School by providing safer, cleaner, and more sanitary restroom facilities. The renovations will also help the school maintain appropriate hygiene standards and provide an improved environment for students throughout the school day.

Proposed Project Budget

Description	Quantity	Unit Cost	Total
Replacement of toilets, including six new toilets, plumbing replacement, Teflon tape, adhesive, and related bathroom wall painting	6	\$133.33	\$800.00
Mason and plumber labor	22 days	\$30/day	\$660.00
Repair, maintenance, and painting of restroom doors	6	\$67.57	\$405.42
Paint for school restroom walls	1 bucket	\$67.57	\$67.57
Labor (\$15/day/volunteer) local contribution	2 people	22 days	-\$660.00
Project management & reporting			\$386.60
Total Project Cost			\$2,319.59
